BITUMINOUS MEMBRANE INSTALLATION MACHINE

MINI-MACADEN®

INSTALL 4 TIMES MORE MEMBRANES PER HOUR!

MINI-MACADEN is a bituminous membrane installation machine developed by SOPREMA. Propelled and self-guided, it unrolls, welds, and smoothes base sheet and cap sheet membranes. Delivered in a robust transport case, it can apply up to 1,000 m² per day with a team of four workers, regardless of the outside temperature (> 0 °C) or wind conditions.

ADVANTAGES

FAST

- Installs thermofusible membranes in record time (4 times as many membranes per hour compared to manual installation).

EFFICIENT

- Lays the base sheet and cap sheet membranes while minimizing the risk of defects.

COST EFFECTIVE

- Requires up to 75% less propane than manual installation.

FLEXIBLE

- Can be used on roofs, bridges, viaducts, and parking decks.

SAFE

- CSA certified, it meets the highest safety standards.

INNOVATION

MINI-MACADEN: One of a Kind!

Protected by international patents, MINI-MACADEN is a Canadian innovation designed and assembled by SOPREMA.

As the only CSA-certified equipment of its kind, the MINI-MACADEN is a very safe machine because it reduces manual operations and limits the use of any flame.

FEATURES

- GAS SAVINGS
Heat is concentrated on the membrane, thus reducing losses.
- AUTOMATIC GUIDANCE
Easy-to-use automatic mode for precise driving.
- HOT AIR BURNER
Hot air outlet for a 900 °C (1,652 °F) thermal fusion.
- EASY AND FAST INSTALLATION
Can install up to 1,000 m² per day with a team of four people.

Check out SOPREMA's YouTube channel to see MINI-MACADEN demonstration and operation videos.

INNOVATION SINCE 1908

SOPREMA has developed around the idea that the quality, durability and reliability of materials must match builders' ambitions and expectations. For more than 100 years, SOPREMA has been using its expertise to develop a variety of high-end products that meet or exceed all the requirements of the construction field.
